

# IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be taken, including the following:

## READ ALL INSTRUCTIONS BEFORE USING

### FOR HOUSEHOLD USE ONLY

**DANGER** — Any appliance is electrically live, even when the switch is off.

To reduce the risk of death or injury by electric shock:

1. Always unplug appliance from electrical outlet immediately after using (except when charging unit).
2. Do not place or store appliance where it could fall or be pulled into a tub or sink.
3. Do not place appliance in, or drop into water or other liquids.
4. Unplug this appliance before cleaning.

**WARNING** — To reduce the risk of burns, electric shock, fire, or injury to persons:

1. Except when charging, never leave a plugged-in appliance unattended.
2. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction

concerning the use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance.

3. Use appliance only for its intended use as described in this manual. Use only attachments recommended by the manufacturer. Do not use an extension cord to operate the appliance.

4. **Never operate the appliance if it has a damaged cord or plug, is not working properly, has been dropped or damaged, or has been dropped into water. Return the appliance to a Conair Service Center for examination and repair.**

5. Keep the appliance cord away from heated surfaces.

6. Do not pull, twist or wrap the cord around the appliance.

7. Never drop or insert any object into any opening on the appliance.

8. Do not place the appliance on any surface while it is operating.

9. Do not use the appliance with a damaged or broken comb or with teeth missing from the blades, as injury may result. Before each use, make certain the blades are aligned properly and oiled.

10. Keep the air openings free of lint, hair, and similar objects.

11. Do not use the appliance outdoors or where aerosol (spray) products are being used or where oxygen is being administered.

12. This appliance is not a toy. Keep away from children.

13. **THIS PRODUCT IS FOR HOUSEHOLD USE ONLY.**

## FEDERAL COMMUNICATIONS COMMISSION NOTICE

### WARNING:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
1. This device may not cause harmful interference, and
  2. This device must accept any interference received, including interference that may cause undesirable operation.
- DATE OF ISSUE: 11/30/2021**

## SUPPLIER'S DECLARATION OF COMPLIANCE

## SAVE THESE INSTRUCTIONS

### USER MANUAL

Before using the Class 2 Power Supply, read these instructions carefully.

**Use with adapter CA81**

**Rated input voltage:** 100–240V AC, 50/60Hz 0.2A

**Rated output:** 4.5V DC 1000mA

### CAUTION

1. Ensure jack is plugged into the trimmer unit before plugging the adapter into the outlet.
2. Do not operate any appliance that has a damaged output cord or housing.

3. Always unplug the unit before cleaning or when not in use.

4. This power unit is intended to be correctly oriented in a vertical or floor-mount position.

5. Be sure voltage is correct before plugging in. For connection to a power supply not in the U.S.A, use an attachment plug adapter of the proper configuration for power outlet. The adapter included automatically adjusts to the input voltage. **DO NOT USE WITH A VOLTAGE CONVERTER.**

### TRIMMER OPERATING PRECAUTIONS

This trimmer has a built-in rechargeable battery. Do not throw into fire, apply heat, or charge, use or leave in a high-temperature environment.

**CAUTION:** Any changes or modifications not expressly approved by Conair LLC, the manufacturer of this product and the party responsible for compliance, could void the user's authority to operate the equipment.

### TROUBLESHOOTING

If your rechargeable trimmer does not seem to be taking a charge, try the following troubleshooting steps before returning it for repair:

1. Be sure the electrical outlet is working by plugging in another appliance to test the outlet.
2. Make sure the electrical plug is not connected to a switch that turns power off when lights are turned off.
3. Make sure the adapter is inserted into the trimmer properly and all the connections are secure.

# OPERATING INSTRUCTIONS

## CHARGING

1. Before using the trimmer for the first time, charge continuously for 3 hours. Maximum battery capacity will be reached only after 3 charging and discharging cycles.

2. To charge the trimmer, first ensure the trimmer is switched off, then insert the small plug on the charging adapter into the hole on the bottom of the trimmer. Plug the adapter into any wall outlet (at the voltage listed on the label affixed to the adapter). Unplug adapter when not in use.

3. The adapter may become warm while charging. This is normal.

4. The red charging LED indicator light on the trimmer will flash when correctly connected. When it is fully charged, the red charging LED indicator light will stay red and stop flashing.

5. A full charge will supply 90 minutes of cordless runtime.

6. When the trimmer is running low on a charge, the LED indicator light will flash, warning you that there is approximately 10 minutes of battery use remaining.

7. To maintain optimum capacity of the rechargeable battery, it is highly recommended to fully discharge and then recharge the trimmer for 3 hours every 6 months.

**WARNING:** If the charging light suddenly starts to flash rapidly, the appliance is faulty. If this happens, please stop charging, remove the adapter from the outlet and contact our Customer Care Center at 1-800-3-CONAIR.

## TRIMMER CHARGING PRECAUTIONS

- Avoid charging the battery at temperatures below 41°F (5°C) or above 95°F (35°C).
- Avoid charging the battery in direct sunlight or near a radiating heat source.
- Even though the trimmer may not be used for an extended period of time, charge once a month to preserve battery life.
- The power cord cannot be replaced. If it is damaged, the DC adapter should be discarded.

## CORDED USE

To use the trimmer connected directly to a power source:

1. Ensure the trimmer is switched off.
2. Insert the small plug on the charging adapter into the hole on the bottom of the trimmer.
3. Plug the charging adapter into a suitable power source and switch on.

The red LED charging light will flash when the adapter is correctly inserted into the appliance and connected to an outlet.

**NOTE:** If the battery is weak and low on a charge, wait approximately 1 minute before switching the trimmer on.

## WET/DRY FEATURE

This device is water resistant. It may be exposed to splashing water in the shower, and can be rinsed clean under the faucet, but should never be completely submerged in water.

## INSTRUCTIONS FOR USE TO SWITCH TRIMMER & SHAVER HEAD ATTACHMENTS

Hold the power handle while turning the trimmer head counterclockwise until the ▼ mark is aligned properly with the ▲ mark. At this point, you should be able to easily lift the trimmer head from the handle. To use a new attachment head on the unit, properly install the head into position. Making sure the ▼ mark is aligned with the ▲ mark, turn clockwise until the ▼ and circle marks are aligned and lock into position (Fig. 1).

Remove the foil head assembly from the shaver head by pushing on the two side buttons and pulling the foil away from the head (Fig. 2).

## GETTING STARTED

1. To use, press ON/OFF switch to ON.
2. After use, press ON/OFF switch to OFF.
3. Cord/cordless operation for total flexibility.
4. Japanese stainless steel blades for sharp and effortless cutting.

## TRIMMING

1. Start with the guide comb attached for first-time use.
2. Turn the unit on.
3. To fully remove hair or to outline the bikini area, use the trimmer without the attachment comb.
4. When removing hair, gently move the blades against the direction of growth.
5. To outline, place the blades perpendicular to the skin surface and apply the blades to the edge of the hair. Use the blades to create the desired outline.
6. For the cleanest finish, follow up with the foil shaver.
7. For cutting hair without completely removing it, attach the detail comb to the head. Place the comb on the cutting blades first, align the comb ribs with top surface of trimmer head housing and then snap down onto the back of the trimming head (Fig. 3).

8. Snap off the comb guide to release from the trimmer head (Fig. 4).

## TAKING CARE OF YOUR TRIMMER

### BLADE CARE

Because the trimmer blades are precision made for a very special use, they should always be handled with care. Rinse blades under water only, allow to air-dry and store the trimmer until the next use.

To promote the long life of the appliance, use your trimmer only for the purpose intended by the manufacturer.

## USING THE SHAVER HEAD ATTACHMENT

The shaver head attachment is designed to provide a clean, close shave. Take care with the foil as it is very sensitive and easily damaged. Always inspect it for damage before you use it. Never use a foil that is damaged, as this can result in injury. Make sure your skin is clean and dry before use. Do not use any lotions or oils before shaving.

## SHAVING

**NOTE: If you are switching to an electric or battery-operated shaver for the first time, it will take about 12 uses for your skin and hair to adjust to this new method of removing hair. Do not evaluate performance until you have allowed your skin and hair time to adjust.**

## HOW TO CLEAN YOUR SHAVER HEAD ATTACHMENT

1. Make sure unit is in the OFF position before cleaning.
2. Hold shaver head attachment and lift up from the back (Fig. 5), then press foil frame release buttons on each side and lift up (the cutter will now be in view). Be careful not to push on the foils. They are delicate and can easily be damaged.

3. Rinse the shaving foil under running water or in a sink. Do not use hot water. Use only warm or cold water.

4. After rinsing, allow the shaving foil to air-dry.

5. If the body of the power handle becomes dirty, wipe off with a damp cloth and mild detergent or soap. Never use thinners, other solvents, or any harsh cleaners.

To maintain the best cutting performance, be sure to replace the foil head and cutter after every 6 months of regular use. Contact Conair Consumer Service at 1-800-3-CONAIR to order the replacement parts.

## BATTERY SAFETY INFORMATION

1. This device requires one 14500 lithium-ion battery.
2. Battery is not to be removed by the consumer unless instructed by the manufacturer.
3. Since the battery is sensitive to high temperatures, when storing the device, keep it in a cool, dry place.
4. Never put batteries into a fire.
5. Switch off device after use.
6. Keep batteries away from children, especially the batteries that are small enough to ingest.
7. If a battery is ingested, seek immediate medical help.
8. Never open, crush, puncture or disassemble batteries.
9. Dispose of batteries according to any state and local regulations.
10. Do not dispose of rechargeable batteries as solid waste.

## BATTERY DISPOSAL

This appliance contains a lithium-ion battery. To protect the environment, this appliance and its battery must be disposed of safely. At the end of its life, please take this appliance to a recycling center, where the internal rechargeable battery should be removed by a professional and recycled separately. For more information about the recycling of electrical and battery-operated appliances, please contact your local recycling or environmental protection office or your household waste disposal service. For specific questions regarding the replacement of batteries in this product, please contact our Conair Customer Care Line at 1-800-3-CONAIR.

## NPGBT02 BIKINIBOMB TRIM & SHAVE

Lithium-Ion Rechargeable Cord/Cordless Trimmer with Japanese Stainless Steel Blades

Hypoallergenic Foil Shaver

**WARNING: IF YOU THINK THE POWER IS OFF WHEN THE SWITCH IS OFF, YOU'RE WRONG.**

**KEEP AWAY FROM WATER**

Everyone knows that electricity and water are a dangerous combination. But did you know that an electric appliance is still electrically live even if the switch is off? If the plug is in, the power is on. So when you are not using your appliances, keep them unplugged.

**ALWAYS UNPLUG SMALL APPLIANCES**

## LIMITED TWO-YEAR WARRANTY (U.S. AND CANADA ONLY)

Conair will repair or replace (at our option) your unit free of charge for 24 months from the date of purchase if the appliance is defective in workmanship or materials.
